**Move naturally thanks to PERNATON® - NEW with the power of curcuma**

**For over 20 years PERNATON® has been supporting the function of joints, tendons, ligaments and muscles with the Original Perna Extract. The natural substance is a rich source of essential nutrients and building agent for the optimal functioning of the musculoskeletal system. New in the range is the nutritional supplement PERNATON® + Chondroitin + Curcuma.**

### **NEW with the power of curcuma**

Curcuma, also called Indian turmeric or Indian saffron, and its main ingredient curcumin are known for their positive properties for health and well-being.

PERNATON® + Chondroitin + Curcuma is a dietary supplement with Original Perna Extract (green-lipped mussel extract), chondroitin, vitamin C and curcuma. The green-lipped mussel extract in PERNATON® is 100% natural, comes from New Zealand and contains essential nutrients and building agents for the optimal functioning of the musculoskeletal system: Chondroitin\*, glucosamine\*, hyaluronic acid\*, omega-3 fatty acids, 18 amino acids, 11 minerals and 8 vitamins. The gentle and controlled manufacturing process without heat guarantees highest quality. Chondroitin is a natural component of connective tissue, ligaments and joint cartilage. A sufficient supply serves to maintain joint mobility. Vitamin C contributes to normal collagen formation for regular cartilage function. \* As part of the glycosaminoglycans.

The product is available in Swiss pharmacies, drugstores and from selected physiotherapists.
