Newsflash: neo-angin® protect provides protection against viruses and bacteria

Viruses and bacteria are omnipresent, especially in times of an increased risk of infection. The neo-angin® protect range with the line active ingredient Ectoin® offers a natural protective film which reduces the risk of infections in the mouth and throat.

What is neo-angin® protect used for?

Neo-angin® protect supports the natural barrier function to **ward off viruses and bacteria** in the mouth and throat. The **100% natural active ingredient** Ectoin® forms a protective film over the throat and mouth mucosa, thereby reducing the risk of bacterial or viral infection.

Thanks to the protective film, neo-angin® protect also relieves minor complaints such as hoarseness, scratchy throat, dry mouth, difficulty swallowing, itchy gums, inflammation and irritation of the mucosa (caused by cold winter air, heating or air conditioning systems).

Neo-angin® protect is available in the form of lozenges and as a mouth and throat spray and can be applied daily.

Forms a protective film against the penetration of viruses and bacteria

- Use products preventively or immediately at the first signs of infection
- Effect proven by numerous studies
- Effectiveness is based on 100% natural ingredients
- No habituation effect due to physical action
- Without preservatives / gluten / lactose / sugar

Neo-angin® protect lozenges

Reduces the risk of bacterial or viral infection thanks to the natural protective film.

With sea salt and the 100% natural active ingredient Ectoin®.

Suitable for children from 6 years.

With a pleasant honey aroma and slightly salty taste.

Neo-angin® protect mouth and throat spray (vegan)

Reduces the risk of bacterial or viral infection thanks to the natural protective film.

With sea salt and the 100% natural active ingredient Ectoin®.

Neo-angin® protect spray also reduces the penetration of allergens and thus, for example, allergy-induced itchy gums caused by pollen allergies (hay fever).

Suitable for children aged 2 or over.

With a gentle menthol and sage flavour which children and sensitive people also like and which is non-irritating.
